

Coving & Trims

All coving and trims are made from polyurethane material. Each strip is 240cm in length and comes with acrylic finishing. They can be attached with Liquid Nail whilst acrylic can be used to seal off edges. Available in various designs and models which can be viewed in our showroom. It is highly recommended to take note of the model numbers when making enquiries both via email, on the phone or when visiting our showroom. Liquid Nail is available from stock from our showroom as well.
